Our driver assistance and safety systems are an aid and do not relieve you of your responsibility as a driver. Follow the instructions in the user manual and the system limitations described in it.

[2] The stated values were determined according to the prescribed measurement method. These are "CO₂ WLTP values" in the sense of Article 2 no. 3 of Implementing Regulation (EU) 2017/1153. Fuel consumption values were calculated based on these values. Energy consumption was determined based on VO 683/2008/EG. The data does not refer to an individual vehicle and is not part of the offer, but only serves to compare different types of vehicles. Values vary depending on selected accessories.
